" I always say that Eures is a good service to get people to firms, you can find not too much quantity like for example firms who need pickers to strawberries in Huelva, but you can find professional workers to industrie or service. The most important for me is that you will find a person in the other part (Eures Advisor) who will help you from the beginning until the end. He will answer you all your problem, he will help you in recruitment and later when the job relation is began, your Eures Advisor will look for experience between worker-firm and he will try solve all difference that may be have in that relation.

It is possible that my firm, who need a lot of people, we can not arrive to get all workers, but I am sure that my Eures Advisor will try arrive all people who he know that may be interested in my offer and he will explain all about my firm, about my work conditions and the most important he will give us more ideas to get people or where we can find the best people to our offer.

Our first Eures experience began in Regional Labour Office in Poznan (Poland) on December 2006, when we contacted with Amadeusz Konieczny like Eures Advisor and he told us what we must do to work with Eures and to get a people recruitment in Poland. Later we spok with our Eures Advisor in Spain (Huelva) Ricardo Panzuela and we are working with them until now and we are very grateful them to permit us to use this tool and for the fantastic job that they do for us."

**Enrique Masiá Ciscar**  
**Director Manager.**
